REC_DS using C_Week 3_MCQ_Updated

Attempt : 1 Total Mark : 20 Marks Obtained : 0

Section 1: MCQ

1. The result after evaluating the postfix expression 10 5 + 60 6 / * 8 - is

Answer

Status: Skipped Marks: 0/1

2. What will be the output of the following code?

```
#include <stdio.h>
#define MAX_SIZE 5
void push(int* stack, int* top, int item) {
  if (*top == MAX_SIZE - 1) {
    printf("Stack Overflow\n");
    return;
}
```

```
stack[++(*top)] = item;
int pop(int* stack, int* top) {
      if (*top == -1) {
        printf("Stack Underflow\n");
        return -1;
      }
      return stack[(*top)--];
   int main() {
      int stack[MAX_SIZE];
      int top = -1;
   push(stack, &top, 10);
      push(stack, &top, 20);
      push(stack, &top, 30);
      printf("%d\n", pop(stack, &top));
      printf("%d\n", pop(stack, &top));
      printf("%d\n", pop(stack, &top));
      printf("%d\n", pop(stack, &top));
      return 0:
   }
   Answer
                                                                        Marks : 0/1
   Status: Skipped
```

3. The user performs the following operations on the stack of size 5 then at the end of the last operation, the total number of elements present in the stack is

```
push(1);
pop();
push(2);
push(3);
pop();
push(4);
pop();
pop();
```

	push(5);	,018	,018	,07				
241	Answer -	24,50,	24,150,	24/50				
Ý	Status: -			Marks : 0/1				
	4. Consider the linked list implementation of a stack. Which of the following nodes is considered as Top of the stack?							
24	Answer - Status: -	241501018	241501018	Marks : 0/1				
	5. In the linked list implementation of the stack, which of the following operations removes an element from the top?							
	Answer							
	- Status : -			Marks : 0/1				
241	6. Here is an Infix Expression: 4+3*(6*3-12). Convert the expression from Infix to Postfix notation. The maximum number of symbols that will appear on the stack AT ONE TIME during the conversion of this expression?							
	Answer							
	- Status : -			Marks : 0/1				
	7. What will be the output of the following code?							
241	#include <stdio.h> #define MAX_SIZE 5 int stack[MAX_SIZE]</stdio.h>		241501018	24750707				

```
int top = -1;
int isEmpty() {
  return (top == -1);
int isFull() {
  return (top == MAX_SIZE - 1);
void push(int item) {
  if (isFull())
     printf("Stack Overflow\n");
     stack[++top] = item;
int main() {
  printf("%d\n", isEmpty());
  push(10);
  push(20);
  push(30);
  printf("%d\n", isFull());
  return 0;
}
Answer
Status: -
                                                                      Marks: 0/1
```

8. When you push an element onto a linked list-based stack, where does the new element get added?

Answer

-

Status: - Marks: 0/1

9. A user performs the following operations on stack of size 5 then which of the following is correct statement for Stack?

```
247507078
                          241501018
                                                    24/50/078
    push(1);
   pop();
push(2);
    push(3);
    pop();
    push(2);
    pop();
    pop();
    push(4);
    pop();
    pop();
    push(5);
    Answer
    Status: -
    10. What will be the output of the following code?
    #include <stdio.h>
    #define MAX_SIZE 5
    int stack[MAX_SIZE];
    int top = -1;
if (top == -1) {
    printf("0"
         printf("Stack is empty\n");
      } else {
         printf("Stack elements: ");
         for (int i = top; i >= 0; i--) {
           printf("%d ", stack[i]);
         }
         printf("\n");
      }
    }
    void push(int value) {
                                                                               247507078
                                                    247501078
       if (top == MAX_SIZE - 1) \{ 4 \}
         printf("Stack Overflow\n");
      } else {
```

```
stack[++top] = value;
    int main() {
      display();
      push(10);
      push(20);
      push(30);
      display();
      push(40);
      push(50);
      push(60);
امد)
return 0;
}
      display();
    Answer
    Status: -
                                                                     Marks: 0/1
    11. Pushing an element into the stack already has five elements. The
    stack size is 5, then the stack becomes
    Answer
    Status: -
                                                                     Marks: 0/1
    12. What is the advantage of using a linked list over an array for
    implementing a stack?
    Answer
                                                                     Marks: 0/1
    Status: -
```

Which of the following Applications may use a Stack?
